Allstate[®] BENEFITS

Protection for accidental
injuries on- and off-the-job,
24 hours a day

Accident Insurance

Today, active lifestyles in or out of the home may result in bumps, bruises and sometimes breaks. Getting the right treatment can be vital to recovery, but it can also be expensive. And if an accident keeps you away from work during recovery, the financial worries can grow quickly.

Most major medical insurance plans only pay a portion of the bills. Our coverage can help pick up where other insurance leaves off and provide cash to help cover the expenses.

With Accident insurance from Allstate Benefits, you can gain the advantage of financial support, thanks to the cash benefits paid directly to you. You also gain the financial empowerment to seek the treatment needed to be on the mend.

Here's How It Works

Our coverage pays you cash benefits that correspond with hospital and intensive care confinement. Your plan may also include coverage for a variety of occurrences, such as: dismemberment; dislocation or fracture; ambulance services; physical therapy and more. The cash benefits can be used to help pay for deductibles, treatment, rent and more.

Meeting Your Needs

- Guaranteed Issue, meaning no medical questions to answer
- Benefits are paid directly to you unless otherwise assigned
- Pays in addition to other insurance coverage
- Coverage also available for your dependents
- Premiums are affordable and can be conveniently payroll deducted
- Coverage can be continued; refer to your certificate for details

With Allstate Benefits, you can protect your finances against life's slips and falls.

Meet Daniel & Sandy

Daniel and Sandy are like most active couples: they enjoy the outdoors and a great adventure. They have seen their share of bumps, bruises and breaks. Sandy knows an accidental injury could happen to either of them. Most importantly, she worries about how they will pay for it.

Here is what weighs heavily on her mind:

- Major medical will only pay a portion of the expenses associated with injury treatments
- They have copays they are responsible for until they meet their deductible
- If they miss work because of an injury, they must cover the bills, rent/mortgage, groceries and their child's education
- If they need to seek treatment not available locally, they will have to pay for it

Daniel's story of injury and treatment turned into a happy ending, because he had supplemental Accident Insurance to help with expenses.

CHOOSE

Daniel and Sandy choose benefits to help protect their family if they suffer an accidental injury.

USE

Daniel was playing a pick-up game of basketball with his friends when he went up for a jump-shot and, on his way back down, twisted his foot and ruptured his Achilles tendon.

Here's Daniel's treatment path:

- Taken by ambulance to the emergency room
- Examined by a doctor and X-rays were taken
- Underwent surgery to reattach the tendon
- Was visited by his doctor and released after a one-day stay in the hospital
- Had to immobilize his ankle for 6 weeks
- Was seen by the doctor during a follow-up visit and sent to physical therapy to strengthen his leg and improve his mobility

Daniel would go online after each of his treatments to file claims. The cash benefits were direct deposited into his bank account.

Daniel is back playing basketball and enjoying life.

Allstate BENEFITS

Protection when faced with a critical illness diagnosis and you need treatment

Critical Illness Insurance

No one is ever really prepared for a life-altering critical illness diagnosis. The whirlwind of appointments, tests, treatments and medications can add to your stress levels.

The treatment to recovery is vital, but it can also be expensive. Your medical coverage may only cover some of the costs associated with treatment. You're still responsible for deductibles and coinsurance. If treatment keeps you out of work, the financial worries can grow quickly and stress levels may rise.

Critical Illness coverage helps provide financial support if you are diagnosed with a covered critical illness. With the expense of treatment often high, seeking the treatment you need could seem like a financial burden. When a diagnosis occurs, you need to be focused on getting better and taking control of your health, not stressing over financial worries.

Here's How It Works

You choose benefits to protect yourself and any family members if diagnosed with a critical illness. Then, if diagnosed with a covered critical illness, you will receive a cash benefit based on the percentage payable for the condition.

Meeting Your Needs

- Guaranteed Issue, meaning no medical questions to answer at initial enrollment
- Coverage available for dependents
- Covered dependents receive 50% of your Basic-Benefit Amount
- Benefits paid regardless of any other medical or disability plan coverage
- Premiums are affordable and conveniently payroll deducted
- Coverage may be continued; refer to your certificate for details
- 25% of your Basic-Benefit Amount is paid for Alzheimer's Disease

With Allstate Benefits, you can make treatment decisions without putting your finances at risk. **Are you in Good Hands? You can be.**

Meet Ashley

Ashley is like any single parent who has been diagnosed with a critical illness. She's worried about her future, her children and how they will cope with her treatments. Most importantly, she worries about how she will pay for it all.

Here is what weighs heavily on her mind:

- Major medical only pays a portion of the expenses associated with my treatment
- I have copays I am responsible for until I meet my deductible
- If I am not working due to my treatments, I must cover my bills, rent/mortgage, groceries and my children's education
- If the right treatment is not available locally, I will have to travel to get the treatment I need

Ashley's story of diagnosis and treatment turned into a happy ending, because she had supplemental Critical Illness Insurance to help with expenses.

CHOOSE

Ashley chooses Critical Illness benefits to help protect her and her children, if they are diagnosed with a critical illness.

USE

During Ashley's annual wellness exam, her doctor noticed an irregular heartbeat. She underwent an electrocardiogram (EKG) test and stress test, which confirmed she had a blockage in one of her coronary arteries.

Here's Ashley's treatment path:

- Ashley has her annual wellness exam
- Her doctor notices an abnormality in her heartbeat; tests are performed and she is diagnosed with coronary artery disease
- After visits with doctors, surgeons and an anesthesiologist, Ashley undergoes surgery
- Surgery is performed to remove the blockage with a bypass graft. She is visited by her doctor during a 4-day hospital stay and released
- Ashley followed her doctor required treatment during a 2-month recovery period, and had regular doctor office visits

Ashley is doing well and is on the road to recovery.

CLAIM

Ashley's Critical Illness claim paid her cash benefits for the following:

Wellness

Coronary Artery Bypass Surgery

The cash benefits were direct deposited into her bank account.

For a listing of benefits and benefit amounts, see your company's rate insert.

Using your cash benefits

Cash benefits provide you with options, because you decide how to use them.

CERTIFICATE SPECIFICATIONS

Eligibility

Your employer decides who is eligible for your group (such as length of service and hours worked each week). Issue ages are 18 and over.

Dependent Eligibility/Termination

Family members eligible for coverage are your spouse or domestic partner and children. Coverage for children ends when the child reaches age 26, unless he or she continues to meet the requirements of an eligible dependent. Spouse coverage ends upon valid decree of divorce or your death. Domestic partner coverage ends when the domestic partnership ends or your death.

When Coverage Ends

Coverage under the policy ends on the earliest of: the date the certificate is canceled; the date the policy is canceled; you stop paying your premium; the last day of active employment; you or your class are no longer eligible; when the maximum percentage of the basic benefit amount for each critical illness category is paid, including the Additional Recurrence benefit.

Continuing Your Coverage

You may continue coverage under the Portability Privilege provision when coverage under the policy ends. Refer to your Certificate of Insurance for details.

BENEFIT CONDITIONS

Conditions and Limits

A diagnosis occurring before your coverage begins is not payable; however, a diagnosis of any covered critical illness or optional benefit after your effective date will be payable. Benefits are subject to the Pre-Existing Condition Limitation as well as all other limitations and exclusions. All critical illnesses must meet the definitions and dates of diagnoses stated in the policy and be diagnosed by a physician while coverage is in effect. Emergency situations outside the U.S. will be considered when you return to the U.S.

Pre-Existing Condition Limitation

Benefits are not paid for a critical illness that is caused by a pre-existing condition when the date of diagnosis is within 12 months after the effective date of coverage. A pre-existing condition is a disease or physical condition for which symptoms existed within the 12-month period prior to the effective date, or medical advice or treatment was recommended or received from a medical professional within 12 months prior to the effective date. A pre-existing condition can exist even though a diagnosis has not yet been made.

The exception to the above would be for follow-up care for breast cancer. Routine follow-up care for a person who has been previously determined to be free of breast cancer does not constitute medical advice, diagnosis, care or treatment unless evidence of breast cancer is found during, or as the result of, the follow-up care.

Exclusions

Benefits are not paid for: war, whether or not declared, or participation in a riot, insurrection or rebellion; intentionally self-inflicted injury; engaging in an illegal occupation or committing or attempting to commit a felony; suicide while sane or insane; injury sustained while being under the influence of alcohol, narcotics, or any other controlled substance or drug unless administered on the advice of a physician; participation in aeronautics unless a fare-paying passenger on a licensed common-carrier aircraft operating between established airports; substance abuse, including alcohol, alcoholism, drug addiction or dependence on a controlled substance.

Meet Tommy

Tommy's parents are like most parents; they worry about the health and well-being of their family. They know that as Tommy grows he will become more active and may be hospitalized due to a sickness or injury. Most importantly, they worry about how they will pay for it.

Here is what weighs heavily on their minds:

- Major medical only pays a portion of the expenses associated with hospital stays
- They have copays they are responsible for until they meet their deductible
- If they miss work due to Tommy having a hospital stay, they must cover their bills, rent/mortgage, groceries and education expenses
- If the right treatment is not available locally, they will have to travel to get the treatment he needs

Tommy's story of sickness and a hospital stay turned into a happy ending, because his parents had supplemental Hospital Indemnity Insurance to help with expenses.

CHOOSE

Tommy's mother chooses benefits to help protect herself and her family members, should they suffer an illness or injury that requires a hospital stay.

USE

Tommy was sick and vomiting, had a loss of appetite and a fever, and complained about a pain in his side. He was also unable to get out of bed.

Here's Tommy's treatment path:

- Taken by ambulance to the emergency room
- Examined by a physician
- Multiple tests were performed
- Admitted for a two-day hospital stay
- Undergoes emergency appendectomy surgery
- Visited by his doctor and released
- Recovered from surgery in 5 weeks
- Seen by the doctor during a follow-up visit

Tommy's mother went online after Tommy's hospital stay to file a claim. The cash benefits were direct deposited into her bank account.

Tommy is fully recovered and back to normal.

CLAIM

Tommy's hospital stay claim paid cash benefits for the following:

- Ambulance
- First Day Hospital Confinement
- Daily Hospital Confinement
- Variable Surgical Schedule
- Anesthesia
- Inpatient Physician's Treatment
- Outpatient Physician's Treatment

For a listing of benefits and benefit amounts, see the rate insert.

Term to Age 100 Life Insurance

A death not only leaves behind loved ones, but can also leave overwhelming financial obligations. And, if you're like most people, you don't have enough life insurance to keep your family afloat if an unexpected death occurs. Give yourself and your loved ones a gift of love – put yourself in Good Hands with coverage from Allstate Benefits.

Here's How It Works

You choose the coverage that's right for you and your family. With planning, the death benefit can pass to your beneficiaries free from state or federal estate taxes. Consult with your tax advisor for specific information. Then, when life comes to an end, your beneficiary can receive a tax-free death benefit that can be used to help pay for funeral expenses, mortgage payments and more.

Meeting Your Needs

- You choose the death benefit amount to leave behind
- Coverage for spouse through a separate certificate, and for child(ren) through a separate certificate or rider
- Premiums are affordable and remain level to age 100 unless you make changes to your coverage

Here is what weighs heavily on her mind:

- She has a mortgage and still owes a substantial amount before it is paid off
- Her children go to private school and will need income to help continue their education as they get older
- Her debt to income ratio is high and would be a hardship on her family
- Daily living expenses for items such as gas, food, insurance, electricity, and water are a necessary part of life

Why Term Life Insurance might be right for you

Have you ever experienced a life-changing event, whether good or bad, and worried that you would not have the finances in place to handle it if you lost your spouse?

Perhaps it has crossed your mind, but you put it off because you did not want to think about the unthinkable. However, if you have a spouse, children, or even grandchildren, that is reason enough to think about planning for their future today.

Here are some additional reasons to consider:

- You can't predict when you'll die, whether from a disease, accidental injury or natural causes
Upon your death, Term to Age 100 can provide a lump-sum cash benefit directly to your designated beneficiary
- You live on a budget, and purchasing traditional permanent life insurance would be costly
Term to Age 100 is affordably priced
- You want a Term Life policy that offers coverage for more than 5, 10 or 20 years
Term to Age 100 offers coverage that can be with you until age 100
- You want affordable coverage that goes with you should you leave your employer
You can take the Term to Age 100 coverage with you; see your Certificate of Insurance for details
- You're the primary wage earner and your family would have difficulty living without your income
If you die before age 100, Term to Age 100 offers your designated beneficiary a lump-sum death benefit that is guaranteed for the first five years of coverage and is priced to remain level under current experience factors
- You have recurring monthly debts such as a mortgage, car payment or credit cards
Term to Age 100 provides a lump-sum death benefit that can be used to help cover monthly expenses
- You have children under 18, and they require money for daily living expenses such as food, clothing, school sports and college education
Term to Age 100 provides a lump-sum death benefit that can be used to help with daily living expenses
