## Budget Help

Many folks have difficulty finding ways to make ends meet. Here are some suggestions to get control of your money:

- *Living within your means.* If there is more going out than coming in there needs to be some decisions and changes in spending. This is crucial to resolving money problems. Plan out expenses you know you have regularly and make a plan to cover these expenses. If you have more output than input consider what can be eliminated.
- *Have an emergency fund.* Stuff happens! Even if it is just a few dollars, sock it away for those times when life happens as it invariably will.
- *Eliminate living on credit.* Folks who use credit to cover the cost for their basic need items like food and shelter or to reward themselves with "fun" toys will often find themselves in a deep hole of debt that can be difficult to climb out of. If you want something instead of reaching for the plastic get an envelope and put a dollar inside. Add to that dollar whenever you can. You will probably enjoy that item much more once you get it!

Complete the budget on the following page. Spend some time thinking about what you learn from this. Talk to your partner if you have one
