INTRODUCTION

General

The information contained within this manual is a reference document for use during the 2007-2008 school year. The "Budget Information" on page 3 contains the 2007-2008 rates for average teacher and paraprofessional salaries, the tentative Florida Retirement contributions rate, the FICA match rate, the annual per employee health insurance rate, the annual flexible fringe benefit (VISTA Account A) rate, the tentative 2007-2008 indirect cost rate, minimum wage and other relevant information.

Grant administrators may use the information contained in this manual to develop budget amounts for average salaries and benefits for teacher positions, paraprofessional positions, etc. when applying for state or federal grants. Contact the Research and Evaluation Department for more specific information on applying for grants.

School's Budget Information

Schools will receive their 2007-2008 Tentative Budgets on April 24th and 26th, 2007 based on projected teacher allocations and average daily membership. Schools will be required to allocate the budget into specific objects and functions and sub projects by the week of May 15th. During this week, schools will have an appointed time in the Information Services computer lab to enter the tentative budget on-line into the TERMS software system. The Tentative Budget will be available for schools to use starting July 1, 2007.

District's Budget Information

District Cost Centers will receive Tentative Budget Development Worksheets on April 12th, 2007. These worksheets will include the following information: (1) 2005 and 2006 Actuals (which reflects the final expenses for that fiscal year); (2) 2007 Actuals (which is the YTD expenses and encumbrances); (3) 2007 Final Budget and (4) 2007 Original Budget. District cost centers' budget will be the same amount as the 2006-2007 Original Budget. During the week of May 1st, District Cost Centers will have an appointed time in the Information Services computer lab to enter the tentative budget on-line into the TERMS software system. Any changes to the annual budget will require explanations; each director will be required to attend a budget review meeting with the Superintendent's staff for budget approval. The Tentative Budget will be available for cost centers to use July 1, 2007.

Budget Amendments

Anticipated expenditures should be considered when developing the budget, however, the Budget Amendment Panel (L906) will be available July 1, 2007.

Special Requests

School and district departments may request additional funding for furniture and equipment by using the Special Requests Forms provided in the budget packets. These requests will be entered into the TERMS system during the budget input workshops. See page 20 for procedures.

SCHOOL'S BUDGET INFORMATION

In order to prepare the 2007-2008 Tentative Budgets, each school will receive the following:

- 2007-2008 Tentative Budget
- Worksheets 1 - 4
- Special Request Forms
- Budget Information Book

The 2007-2008 Tentative Budget worksheet contains the school's discretionary, comparability, media, lottery and instructional materials/textbook funds based on projected allocations and average daily membership (ADM). Included on the worksheet is the school's non discretionary funds; these funds must be expended within the current fiscal year and cannot be amended or rolled forward.

Discretionary Funds - Project # 0100

Discretionary funds are to be budgeted to all available objects, functions, and sub projects. (Use Worksheet #1 for this purpose). Sub projects are available for use when allocating the same function among different departments and/or classes, teams, or learning communities. Using sub projects effectively will enable the school to manage the school's budget without maintaining separate records. It is recommended that sub projects be used with functions **5000, 5200, 5300, and 5400**. Sub project numbers that are used with the school's district budget should correlate with the school's internal accounts sub project numbers. Ex: Sub project number 0001 should be used with the same class, team or learning community for both the internal accounts and the school's district budget.

School Media Allocation Funds - Project # 0102

School Media Allocation funds are to be allocated to all available objects but must remain in project #0102 and function 6200 (Use Worksheet #2 for this purpose). For additional information on media procedures, see page 15.

Principal's Travel – Project #0105

A non-discretionary fund allocated to secondary schools for administrative travel.

Data Entry Supplies – Project #0106

A non-discretionary fund to be used for data entry supplies.

Comparability Funds - Project # 0108

Comparability funds must be budgeted to the coding shown. These funds cannot be amended and must be expended on consumable supplies. It is suggested that the school use these funds for school wide needs such as copy paper, lesson plans, permission slips, etc. rather than divide it among separate sub projects.

Lottery Funds - Project # 2115

Lottery funds can be budgeted to all available objects, functions and sub projects with the input of the School Advisory Council. Funds must remain in Project #2115 and should be expended during the current fiscal year (Use Worksheet #3 for this purpose). Lottery funds may not be used for **capital project items** involving construction, renovation, remodeling, or site improvement, nor may they be used for any project or program that has duration of more than one year. The Legislative intent is that the funds be expended in the current fiscal year in order to have direct, positive impact on current student learning rather than be set aside for future expenditures.

Instructional Materials/Textbooks Funds - Project # 2155

Instructional Materials/Textbooks funds can be used for textbooks and flexibility items. However, the amount which can be used for flexibility items is limited to 50% of the Instructional Materials/Textbooks Funds (Use Worksheet #4 for this purpose). For additional information on Instructional Materials/Textbooks, see page 15.

DISTRICT COST CENTERS' BUDGET INFORMATION

In order to prepare the 2007-2008 Tentative Budgets each cost center will receive the following:

- 2007-2008 Tentative Budget Development Worksheet
- Special Request Form
- Budget Information Book

Each department will receive a budget worksheet for project 0100, Basic Discretionary and for other projects assigned to that department's cost center.

The Tentative Budget Development Worksheet contains historical data from three fiscal years. The 2004-2005 and 2005-2006 actuals are the final expenses for those fiscal years. The 2006-2007 actuals will include YTD expenses **and** encumbrances. The worksheet will also include 2006-2007 Final Budget and the 2006-2007 Original Budget (the final budget equals the original budget plus YTD budget amendments). An example is included on the next page. This historical data from previous year's actuals should help in the budget development process. Cost centers are requested to budget to the same amount as their **2006-2007 Original Budgets**.

With the opening of five new schools this year, additional funds will be needed in some projects. Any changes in a budget amount must have a detailed explanation clearly stating the rationale for the increase or decrease, the statement "**additional budget for new schools**" will not be accepted.

General fund monies cannot be used for capital purchases (Objects 0621, 0641, 0643 and 0691). Funding for these types of purchases should be requested with a special request.

The on-line budget workshops are scheduled during the week of May 1st in the Information Services Computer Lab. Each cost center should call Accounting to schedule an appointed date and time. **Both the tentative budget and special requests will be entered into the TERMS system during this workshop.** Cost centers will receive a Tentative Budget Report and a record of each special request submitted.

Each director will be required to attend a budget review meeting before June 30th with the Superintendent's staff. The director will be notified when their meeting is scheduled. Please be prepared to fully explain the department's budget.

MEDIA TECHNOLOGY PROCEDURES

Discretionary Funds - School Media Allocation - Project #0102

The total appropriation for the school level function 6200 is based upon:

Elementary	\$21.00 per ADM
Middle & Secondary	\$25.00 per ADM
Marchman	\$25.00 per ADM and Adult FTE
Alternative School	\$25.00 per ADM
Moore Mickens	\$25.00 per ADM and Adult FTE

The budget, developed in cooperation with the Media and Technology Specialists, should be appropriated to the various objects within this function in order to meet/maintain SACS Accreditation Standards, and to insure that an unmanageable program area deficiency doesn't occur. All funds in 6200 must remain in that function; although they may be amended from one object to another if the need arises.

Instructional Materials/Textbooks Procedures - Project #2155

DIMC textbook department allocates funds to schools based on projected ADM (\$60.00 per ADM). The funds will be budgeted in project 2155 (Instructional Materials/Textbooks).

Up to 50% of allocated textbook funds may be expended for "flexibility" items. Flexibility items are instructional materials not on the state adopted list and may include workbooks, kits, models, maps, and software, etc.

Objects available for this project are:

0360	Site Subscriptions
0520	Textbooks
0530	Subscriptions
0621	Audio-visual Materials Over \$750.00.
0622	Audio-visual Materials Less than \$750.00.
0691	Software Over \$750.
0692	Software Less than \$750.00

Textbook funds may not be used for object 0510 Supplies, or 0590 Other Material & Supplies.

School textbook coordinators order textbooks based on adoption cycle and available budget. Unused balances can be reserved in anticipation of new textbook adoptions. Contact Wendy Spriggs, Director of Instructional Media & Technology for additional information.

SPECIAL REQUESTS FOR FURNITURE AND EQUIPMENT

Additional funding for **furniture and equipment** must be requested with a Special Request. In addition to furniture and equipment, these requests would include computers, printers, and software utilized for both instructional and non-instructional personnel and students.

Schools and cost centers must complete a Special Request Form for each request for data entry purposes. These requests should be prioritized in numerical order with one (1) being the highest priority. Clearly describe the item(s) requested including a statement as to the reason for the request and if the request is for **Instructional or Non-Instructional** purposes. Each request must include a cost estimate.

The requests will be entered into the TERMS Finance System during the Budget Input Workshops.

The information will be submitted to the Superintendent's staff for funding approval. Schools and cost centers will be notified by memorandum from the Finance Services Department when the approval process has been completed.

Approved Special Requests are limited to the items approved. Additional items **can not** be purchased to use remaining funds due to overestimates or discounts. These savings are used to offset other approved requests which may have been underestimated or to use for other requests that occur during the year.

SMALL ENGINE REPAIR PROCEDURES

All requests for repair or replacement parts on gasoline or diesel powered lawn equipment, vocational agricultural equipment, and golf carts, should be submitted on an Interdepartmental Request Form, coded to function 7900, Maintenance of Plant. The completed form must be sent to the Small Engine Shop, Attn.: Small Engine Shop Coordinator. Arrangements for pick-up and delivery of equipment or repair parts will be coordinated by the Transportation Department.

Golf carts with fleet (GC) numbers will receive parts, service, and repairs as necessary using the same procedures as lawn equipment. Golf carts not meeting district standards will not be issued fleet (GC) numbers and are the sole responsibility of the schools; therefore, we recommend that golf carts not be purchased from the school's internal accounts. Purchase orders for repairs or parts for non-fleet golf carts will **NOT** be approved by the Purchasing Department.

All requests for new lawn equipment, or other items as listed below, should be requested on a Special Request Form. The request will be entered into the TERMS system during the Budget Input Workshop.

If you have equipment that breaks down and needs to be replaced during the year, you should contact the Supervisor of Transportation to see if used equipment is available. If the Transportation Department can not provide the needed equipment, a written request for new equipment should be submitted to the Finance Services Department. Requests will be submitted to the Superintendent's staff for their review and approval.

The Small Engine Shop can no longer support chainsaws purchased by individual cost centers. We will continue to maintain chainsaws through the loaner program, at no charge to the school.

The following items are listed on the maintenance/custodial equipment list for schools (cost centers with contracted lawn care service will not require a full component of equipment):
