

Activity: Sign in to Munis (Mac OS X)

Sign in to Munis

1. Launch Safari
2. Input <https://munis.pasco.k12.fl.us> in the **Address Bar**
 - a. Input **user name** in **Name**
 - b. Input Munis password in **Password**
 - c. Leave **Remember this password in my keychain** unchecked
 - d. Click **Log in**

A screenshot of a Safari browser login dialog box. On the left is the Safari compass icon. The text reads: "To view this page, you must log in to area 'munis.pasco.k12.fl.us' on munis.pasco.k12.fl.us: 443." Below this is the text "Your login information will be sent securely." There are two input fields: "Name:" and "Password:". Below the password field is a checkbox labeled "Remember this password in my keychain". At the bottom right are two buttons: "Cancel" and "Log In".

In the event that a password has been saved in the keychain, any future change to that password may prevent that workstation from logging into Munis until the keychain is cleared. For assistance with clearing an invalid password from the keychain, please contact Tech Help at techhelp@pasco.k12.fl.us and request that the keychain is cleared.

Munis training servers are accessible any time the Live server is accessible. Sign on at <https://munistrain.pasco.k12.fl.us> using the same login credentials as for Live. Note that any data entered in Train does not carry forward into Live, making Train an excellent place to explore the system without concern over altering live data.
