

# MUNIS QSG

QUICK START GUIDE

**Activity:** **Mouse Settings**  
**Enabling Right-Clicking on One-Button Mouse on Mac OS X**

**Adjust Mouse Settings**

1. Open the System Preferences application  
**Go > Applications > System Preferences** (it may also be present in the dock)
2. Double-click on the **Mouse** preference icon
3. Ensure that the left mouse button is set to **Primary Button** and that the right mouse button is set to **Secondary Button** (see image below)
4. Close the **Mouse** preference window
