Failed Standard Relocatable Tracking

Relocatable units currently reported by school, from FISH, and the number of relocatable units identified as 'Failed Standards'.

Nothing reported for this section.

Planning

Class Size Reduction Planning

Plans approved by the school board that reduce the need for permanent student stations such as acceptable school capacity levels, redistricting, busing, year-round schools, charter schools, magnet schools, public-private partnerships, multitrack scheduling, grade level organization, block scheduling, or other alternatives.

The District School Board of Pasco is conducting three redistrictings this school year. Two are as a result of the construction of two new schools, which will open next school year. The third redistricting is to rebalance the populations of several schools which will reduce the immediate need for permanent student stations over the next five years. In addition, the district has reduced the need for permanent student stations in our district in the past by approving several charter schools. The School District is currently reviewing other charter school applications. The District opened its first magnet school last year and is opening two new magnet programs this school year to try to relieve overcrowding conditions at surrounding schools. The Board has implemented the mandated virtual school which will reduce the number of permanent stations needed. Students in grades 10-12 may dual enroll in college courses on one of the Pasco-Hernando campuses in order to simultaneously meet their graduation requirements and earn college credits.

School Closure Planning

Plans for the closure of any school, including plans for disposition of the facility or usage of facility space, and anticipated revenues.

Moore-Mickens Education Center, an alternative education center, has now been closed. Ideas are currently being solicited from the community as to how best to utilize this facility for the community. The school board recently declared several vacant parcels of land as surplus. One parcel was recently sold and the revenue will be used to fund other projects. The other surplus parcels are currently being investigated as to how to best dispose of them for revenue.

Long Range Planning

Ten-Year Maintenance

District projects and locations regarding the projected need for major renovation, repair, and maintenance projects within the district in years 6-10 beyond the projects plans detailed in the five years covered by the work plan.

Nothing reported for this section.

Ten-Year Capacity

Schedule of capital outlay projects projected to ensure the availability of satisfactory student stations for the projected student enrollment in K-12 programs for the future 5 years beyond the 5-year district facilities work program.

Nothing reported for this section.

Ten-Year Planned Utilization

Schedule of planned capital outlay projects identifying the standard grade groupings, capacities, and planned utilization rates of future educational facilities of the district for both permanent and relocatable facilities.
