Temperature Settings for HVAC Equipment

In order to comply with federal, state and District policies, space temperatures will be set in accordance with the following guidelines:

**COOLING:**

- 76°F Fahrenheit, (+/-) 2 degrees, for school areas, including classrooms, media centers, and other non-instructional spaces.

- Gymnasiums may also be cooled to 76°F Fahrenheit, (+/-) 2 degrees, during official school activities or school-approved events.

- During periods of high humidity, acceptable temperature settings and times of use will be determined by both the Energy Coordinator and the Environmental Specialist.

**HEATING:**

- 68°F Fahrenheit, (+/-) 2 degrees, for all conditioned rooms.  
  76°F cool

  68°F heat

**EXHAUST:**

- Set temperature indicator control to 85°F Fahrenheit for all exhaust fans located in electrical rooms

**HUMIDITY:**

- Libraries and Media Centers are to be kept below sixty (60) percent relative humidity.

**NOTE:** All guidelines listed on the document, State Requirements for Educational Facilities 2007 (SREF), which was approved on 12/11/07, and became effective 02/12/08, shall be observed.
