EMPLOYEE AND STUDENT SURVEY RESULTS

EMPLOYEE ENGAGEMENT

Gallup measures employee engagement based on responses to its Q¹² survey, which consists of 12 actionable workplace elements with proven links to performance outcomes.

3.35

GRANDMEAN

"Engaged" employees work with passion and feel a profound connection to their employer. They drive innovation and move the organization forward. "Not Engaged" employees are essentially "checked out". They're sleepwalking through their workday, putting time — but not energy or passion — into their work. "Actively Disengaged" employees aren't just unhappy at work; they're busy acting out their unhappiness. Every day, these workers undermine what their engaged coworkers accomplish.

STUDENT HOPE

The ideas and energy we have for the future drives effort, academic achievement, credits earned, and retention of students of all ages.

PURPOSE AND SURVEY METHODOLOGY

The District School Board of Pasco County exist so that graduates possess the knowledge, skills and abilities to be successful at the next stage of their lives. Achieving this mission requires that DSBPC is aware of the perceptions of employees and students, and that each employee and student see DSBPC as a great place to work and learn. DSBPC launched a partnership with Gallup in 2013 to measure employee and student perceptions and uses this information to make further progress toward achieving the DSBPC mission.

Based on more than four decades of research, Gallup has identified definitive employee attitudes that correspond with the most successful workplaces. Employee engagement — involvement with and enthusiasm for work — is measured by Gallup in a 12-question employee survey. An employee's level of engagement links to various school outcomes, including employee retention, parent engagement, student retention, and student achievement. The employee engagement survey was conducted online from Nov. 15 through Nov. 22, 2013, with 3,896 employees registering their opinions (79% response rate).

The Gallup Student Poll is a 20-question survey that measures the hope, engagement, and well-being of students in grades 5-12. Research supports the idea that hope (ideas and energy for the future), engagement (involvement with and enthusiasm for school), and well-being (how we think about and experience our lives) are actionable targets linked to student achievement, retention, and future employment. The Gallup Student Poll was conducted online during the school day from Nov. 15 through Nov. 22, 2013, with 31,740 students completing the survey.

Both of these surveys have yielded a wealth of data designed to inform DSBPC improvement efforts. Gallup has provided presentations for DSBPC executive staff, principals, and central office managers. Ongoing conversations will continue with teams of employees across the district as we continue to improve our student and staff culture.

The results provide a comprehensive view of school-level data collected from the employee and student surveys. Please note the following:

- These data should be treated as a baseline measure. Future years will allow for comparison of current and previous year survey data.
- The employee survey results are reported at the school level, and also include the DSBPC districtwide results.
- The student survey results are shown at the school level, and also include DSBPC level-alike reports (e.g., all DSBPC high schools). The Gallup 2013 database results (a convenience sample of over 610,000 students from around the nation) are also presented.
- The student survey was only conducted with students in grades 5-12. Although survey participation in the elementary schools is limited to students in the upper grades, discussions about student hope, engagement, and well-being apply to all students.

These data are at the foundation of many important discussions and actions being taken throughout DSBPC. We look forward to leveraging insights from these results as we work to achieve our important mission.
