District School Board of Pasco County 2010-2011 School Profile

Dr. John Long Middle School

Principal: Beth Brown

Message from the Superintendent

The 2010-2011 school year is off to a great start, as we have a strong team of talented educators working throughout our schools every day. We are eager to partner with you to make this a successful school year for your child. One important way we can work together to maximize your child's potential is to reinforce the expectation of good attendance. When students prioritize being at school on time, they are more likely to have a successful experience. We appreciate your help in achieving this important goal.

Our theme for the year is *Learning in the 21st Century*. You will notice an emphasis on the integration of technology into your child's learning as we strive to prepare all students for the challenges of tomorrow and provide equitable access to the tools he or she will need for success. Additionally, our focus is on developing the 21st Century Literacy skills that are needed in our ever-changing world. We want to help our students become better problem solvers, engaged in the world around them and equipped with the critical thinking skills that are needed for analyzing, developing innovative solutions and sharing their creativity with others. Today's students are tomorrow's leaders and we are fostering a supportive learning environment that will help them to reach their dreams.

As we immerse students in an enriching educational environment, we will be expanding the availability of digital learning content. With the use of these resources comes the need for a higher level of personal responsibility for students. We want to help your child develop an understanding of how to navigate online resources in a responsible and safe manner. As part of the cultivation of those skills, we will enforce high expectations that all students will appropriately use these tools to enhance their education. Your help in reminding your child to use technology in an appropriate manner would be greatly appreciated.

As you are probably aware, our District still faces significant financial challenges. In addition to a third consecutive year of multi-million dollar budget shortfalls, districts throughout the state are required to implement the final phase of the class size amendment this year. Despite these challenges, we remain committed to prioritizing the needs of students and ensuring a high quality educational experience for the children of Pasco County.

Again, thank you for your support of our school district. We look forward to working with you to maximize your child's success this year.

Heather Fiorentino
Superintendent

Heather Fiorentino, Superintendent of Schools

Message from the Principal

Since opening in 2006, the Longhorns of Dr. John Long Middle School have created and sustained a rich tradition of excellence by building a strong foundation for learning. The highly qualified faculty participates in ongoing professional development and consistently implements research-based best practice strategies in the classroom. Teachers create a rich, data driven learning environment designed so all students are able to experience success. Our students consistently perform exceptionally well on the annual state assessments. The learning gains our students made resulted in an A grade for the year. Our goal, as we head into our fifth year, will be to continue our path on the *"hunt for excellence."*

School Mission Statement

Dr. John Long Middle School will provide a safe, relevant, and rigorous learning environment to foster positive relationships empowering our diverse community to reach their highest potential.

Learning Environment

The District School Board of Pasco County provides an environment conducive to teaching and learning.

School Improvement Plan 2010-2011

Dr. John Long Middle School made exceptional progress guided by the 2009-2010 School Improvement Plan (SIP). The SIP focused on increasing the percentages of proficient students in all core academic areas; math, science, reading, writing and social studies. The SIP also included a high leverage strategy focused on a comprehensive literacy based, job embedded professional development plan; 100% of the faculty fully participated in this professional development on a monthly basis. As a result of the consistent implementation of these highly effective literacy strategies, our students demonstrated significant learning gains on the state's annual assessments. Dr. John Long Middle School was awarded an A grade for the fourth year in a row, and made Adequate Yearly Progress for all measured subgroups in reading.
