#### Message from the Superintendent

The 2010-2011 school year is off to a great start, as we have a strong team of talented educators working throughout our schools every day. We are eager to partner with you to make this a successful school year for your child. One important way we can work together to maximize your child's potential is to reinforce the expectation of good attendance. When students prioritize being at school on time, they are more likely to have a successful experience. We appreciate your help in achieving this important goal.

Our theme for the year is *Learning in the 21st Century*. You will notice an emphasis on the integration of technology into your child's learning as we strive to prepare all students for the challenges of tomorrow and provide equitable access to the tools he or she will need for success. Additionally, our focus is on developing the 21st Century Literacy skills that are needed in our ever-changing world. We want to help our students become better problem solvers, engaged in the world around them and equipped with the critical thinking skills that are needed for analyzing, developing innovative solutions and sharing their creativity with others. Today's students are tomorrow's leaders and we are fostering a supportive learning environment that will help them to reach their dreams.

As we immerse students in an enriching educational environment, we will be expanding the availability of digital learning content. With the use of these resources comes the need for a higher level of personal responsibility for students. We want to help your child develop an understanding of how to navigate online resources in a responsible and safe manner. As part of the cultivation of those skills, we will enforce high expectations that all students will appropriately use these tools to enhance their education. Your help in reminding your child to use technology in an appropriate manner would be greatly appreciated.

As you are probably aware, our District still faces significant financial challenges. In addition to a third consecutive year of multi-million dollar budget shortfalls, districts throughout the state are required to implement the final phase of the class size amendment this year. Despite these challenges, we remain committed to prioritizing the needs of students and ensuring a high quality educational experience for the children of Pasco County.

Again, thank you for your support of our school district. We look forward to working with you to maximize your child's success this year.

## Message from the Principal

At Lake Myrtle Elementary we **believe** by working together we can make a difference for every child. Our curriculum is standards driven where teachers work together to plan instruction with end goals in mind. We **believe** it is important for us to reflect on assessment data to determine the effectiveness of our instruction. We **believe** it is important to utilize a problem solving process to assist all students. We encourage our families to become involved and **believe** it is our responsibility to help families know how to best help their children.

## School Mission Statement

Lake Myrtle Elementary provides an environment, which fosters the spirit of community through collaborative relationships amongst stakeholders and ensures equity and excellence for all students. We expect our students to be responsible, respectful and safe at all times.

## School Improvement Plan 2010-2011

At Lake Myrtle Elementary we celebrated the growth in the total percentage of students meeting high standards in math, writing and science measured by the FCAT. Our biggest increase was in writing. Ninety-six percent of our fourth grade students scored at proficiency, which was a 10% increase from the previous school year. Our teachers and staff will continue to work together in Professional Learning Communities per grade level in order to reflect and refine their practice. We will focus on engaging our students in meaningful reading tasks throughout the day and to increase the volume of reading for all students. We will work to have all students reading text at their just right levels: not too easy; not too difficult. We look forward to celebrating the difference we are making with our students at our quarterly student celebrations and as a staff at our monthly faculty meetings.
