#### Message from the Superintendent

The 2010-2011 school year is off to a great start, as we have a strong team of talented educators working throughout our schools every day. We are eager to partner with you to make this a successful school year for your child. One important way we can work together to maximize your child's potential is to reinforce the expectation of good attendance. When students prioritize being at school on time, they are more likely to have a successful experience. We appreciate your help in achieving this important goal.

Our theme for the year is *Learning in the 21st Century*. You will notice an emphasis on the integration of technology into your child's learning as we strive to prepare all students for the challenges of tomorrow and provide equitable access to the tools he or she will need for success. Additionally, our focus is on developing the 21st Century Literacy skills that are needed in our ever-changing world. We want to help our students become better problem solvers, engaged in the world around them and equipped with the critical thinking skills that are needed for analyzing, developing innovative solutions and sharing their creativity with others. Today's students are tomorrow's leaders and we are fostering a supportive learning environment that will help them to reach their dreams.

As we immerse students in an enriching educational environment, we will be expanding the availability of digital learning content. With the use of these resources comes the need for a higher level of personal responsibility for students. We want to help your child develop an understanding of how to navigate online resources in a responsible and safe manner. As part of the cultivation of those skills, we will enforce high expectations that all students will appropriately use these tools to enhance their education. Your help in reminding your child to use technology in an appropriate manner would be greatly appreciated.

As you are probably aware, our District still faces significant financial challenges. In addition to a third consecutive year of multi-million dollar budget shortfalls, districts throughout the state are required to implement the final phase of the class size amendment this year. Despite these challenges, we remain committed to prioritizing the needs of students and ensuring a high quality educational experience for the children of Pasco County.

Again, thank you for your support of our school district. We look forward to working with you to maximize your child's success this year.

## Message from the Principal

Oakstead Elementary is a community-oriented school that is located in the Oakstead subdivision in Land O'Lakes, Florida. We have just finished our fourth year and celebrated another successful academic year of learning, creating memories and school wide traditions. We had over 1,100 students throughout the year. We have active volunteers, Parent Teacher Association and School Advisory Council that help with all aspects of our school. Our school monitors every student throughout the school year to make sure all of our students reach their highest potential. Our families, community and staff work together so that student needs and interests are prioritized.

## School Mission Statement

Oakstead Elementary School will provide a safe, positive and collaborative learning environment where our focus is Offering Excellence for Students. At Oakstead we encourage family and community partnerships and foster a culture of literacy, high expectations for all students and family involvement.

## School Improvement Plan 2010-2011

During the 2009-2010 school year our Leadership team, School Advisory Council and staff took on numerous projects. We continued to implement our reading series with fidelity. Our school focused increasing reading proficiency with our students. We continued to use Writer's Workshop in all grade levels to assist our students in the development of writing. Significant growth was seen in our standardized scores for this content area. Our math program consisted of whole group instruction of a skill and guided math groups with a focus on hands-on learning. During science instruction our students learned the required content with weekly science experiments. An area to improve upon was our parent involvement. This area improved significantly and parents felt that they were a part of our school based on two separate parent surveys. We continued to promote excellence and focused on the whole child by offering after school clubs and an extended day program.
