Message from the Superintendent

The 2010-2011 school year is off to a great start, as we have a strong team of talented educators working throughout our schools every day. We are eager to partner with you to make this a successful school year for your child. One important way we can work together to maximize your child's potential is to reinforce the expectation of good attendance. When students prioritize being at school on time, they are more likely to have a successful experience. We appreciate your help in achieving this important goal.

Our theme for the year is *Learning in the 21st Century*. You will notice an emphasis on the integration of technology into your child's learning as we strive to prepare all students for the challenges of tomorrow and provide equitable access to the tools he or she will need for success. Additionally, our focus is on developing the 21st Century Literacy skills that are needed in our ever-changing world. We want to help our students become better problem solvers, engaged in the world around them and equipped with the critical thinking skills that are needed for analyzing, developing innovative solutions and sharing their creativity with others. Today's students are tomorrow's leaders and we are fostering a supportive learning environment that will help them to reach their dreams.

As we immerse students in an enriching educational environment, we will be expanding the availability of digital learning content. With the use of these resources comes the need for a higher level of personal responsibility for students. We want to help your child develop an understanding of how to navigate online resources in a responsible and safe manner. As part of the cultivation of those skills, we will enforce high expectations that all students will appropriately use these tools to enhance their education. Your help in reminding your child to use technology in an appropriate manner would be greatly appreciated.

As you are probably aware, our District still faces significant financial challenges. In addition to a third consecutive year of multi-million dollar budget shortfalls, districts throughout the state are required to implement the final phase of the class size amendment this year. Despite these challenges, we remain committed to prioritizing the needs of students and ensuring a high quality educational experience for the children of Pasco County.

Again, thank you for your support of our school district. We look forward to working with you to maximize your child's success this year.

Message from the Principal

R.B. Cox Elementary had a great year full of challenges and successes. We received the state's Golden School Award and the Five Star School Award for the first time. Our educational goals are established to include the participation of the community, parents, students and school staff. We are proud to have more community members participating in our school related activities and encourage outreach endeavors to continue. All parents are invited to be part of our team to assist in improving student achievement and we encourage you to visit our classrooms. We promote high expectations and look forward to meeting the needs of our students.

School Mission Statement

Our mission is to provide an environment where children will be well educated, value cultural differences, share a body of knowledge and accept personal and social responsibility.

School Improvement Plan 2010-2011

During the 2009 – 2010 school year, staff development for the staff at R.B. Cox Elementary School focused on differentiated instruction for students and the Response to Intervention (RtI) problem solving framework. District resources sponsored this initiative.

R.B. Cox Elementary School continues to strive for student success. On the FCAT 47% of our students met proficiency in reading, 56% of our students met proficiency in math. We are proud to report that 100% of our fourth graders met proficiency in writing. Furthermore, all of our subgroups met AYP under the Safe Harbor requirements in math.

Our School Improvement Plan includes strategies that we will utilize to work with our students to improve achievement in all areas. Teachers will also be participating in additional staff development and trainings in reading and math.
