Raymond B. Stewart Middle School

Principal: Jackson C. Johnson, Jr.

Message from the Superintendent

The 2010-2011 school year is off to a great start, as we have a strong team of talented educators working throughout our schools every day. We are eager to partner with you to make this a successful school year for your child. One important way we can work together to maximize your child's potential is to reinforce the expectation of good attendance. When students prioritize being at school on time, they are more likely to have a successful experience. We appreciate your help in achieving this important goal.

Our theme for the year is *Learning in the 21st Century*. You will notice an emphasis on the integration of technology into your child's learning as we strive to prepare all students for the challenges of tomorrow and provide equitable access to the tools he or she will need for success. Additionally, our focus is on developing the 21st Century Literacy skills that are needed in our ever-changing world. We want to help our students become better problem solvers, engaged in the world around them and equipped with the critical thinking skills that are needed for analyzing, developing innovative solutions and sharing their creativity with others. Today's students are tomorrow's leaders and we are fostering a supportive learning environment that will help them to reach their dreams.

As we immerse students in an enriching educational environment, we will be expanding the availability of digital learning content. With the use of these resources comes the need for a higher level of personal responsibility for students. We want to help your child develop an understanding of how to navigate online resources in a responsible and safe manner. As part of the cultivation of those skills, we will enforce high expectations that all students will appropriately use these tools to enhance their education. Your help in reminding your child to use technology in an appropriate manner would be greatly appreciated.

As you are probably aware, our District still faces significant financial challenges. In addition to a third consecutive year of multi-million dollar budget shortfalls, districts throughout the state are required to implement the final phase of the class size amendment this year. Despite these challenges, we remain committed to prioritizing the needs of students and ensuring a high quality educational experience for the children of Pasco County.

Again, thank you for your support of our school district. We look forward to working with you to maximize your child's success this year.

Heather Fiorentino
Superintendent

Heather Fiorentino, Superintendent of Schools

Message from the Principal

Raymond B. Stewart Middle School continues to be a true community school. Penny for Pasco, a tax reform initiative, provided the funds for the total reconstruction of our campus. From a two-story brick construction in 1926, Stewart Middle School has evolved into a premier school in Pasco County. Our school focus is on providing quality curriculum and meaningful instructional practice. We offer various opportunities to challenge our students through rigorous course work and extra curricular activities. Our goal for the 2010-2011 school year is for each student to achieve a learning gain in math and reading.

School Mission Statement

Our mission as a school community is to provide a safe and nurturing environment where all students have the opportunity to achieve their highest potential academically and socially.

Learning Environment

The District School Board of Pasco County provides an environment conducive to teaching and learning.

School Improvement Plan 2010-2011

Our Improvement Plan for 2009-2010 included objectives in reading, math, writing and science. According to the data, the percentage of our students reading at a proficient level increased by a percentage point as we maintained the same level in the percentage of students making learning gains in reading. In math, we increased the percentage of proficient students by 5 percentage points. We increased the percentage of our students make a learning gain in math by 8 percentage points. Our percentage of students meeting high standards in science increased by 7 points. While our school grade remains a "B", we had an 18 point overall increase in our school score, falling just 8 points shy of a grade of "A".

We expect to move our school forward with our 2010-2011 improvement plan. We are committed to the vision of our District, to provide a learning environment where all of our students reach their highest potential.
