Message from the Superintendent

The 2010-2011 school year is off to a great start, as we have a strong team of talented educators working throughout our schools every day. We are eager to partner with you to make this a successful school year for your child. One important way we can work together to maximize your child's potential is to reinforce the expectation of good attendance. When students prioritize being at school on time, they are more likely to have a successful experience. We appreciate your help in achieving this important goal.

Our theme for the year is *Learning in the 21st Century*. You will notice an emphasis on the integration of technology into your child's learning as we strive to prepare all students for the challenges of tomorrow and provide equitable access to the tools he or she will need for success. Additionally, our focus is on developing the 21st Century Literacy skills that are needed in our ever-changing world. We want to help our students become better problem solvers, engaged in the world around them and equipped with the critical thinking skills that are needed for analyzing, developing innovative solutions and sharing their creativity with others. Today's students are tomorrow's leaders and we are fostering a supportive learning environment that will help them to reach their dreams.

As we immerse students in an enriching educational environment, we will be expanding the availability of digital learning content. With the use of these resources comes the need for a higher level of personal responsibility for students. We want to help your child develop an understanding of how to navigate online resources in a responsible and safe manner. As part of the cultivation of those skills, we will enforce high expectations that all students will appropriately use these tools to enhance their education. Your help in reminding your child to use technology in an appropriate manner would be greatly appreciated.

As you are probably aware, our District still faces significant financial challenges. In addition to a third consecutive year of multi-million dollar budget shortfalls, districts throughout the state are required to implement the final phase of the class size amendment this year. Despite these challenges, we remain committed to prioritizing the needs of students and ensuring a high quality educational experience for the children of Pasco County.

Again, thank you for your support of our school district. We look forward to working with you to maximize your child's success this year.

Message from the Principal

At Shady Hills Elementary, the faculty and staff are committed to the school district's vision of helping students reach their highest potential. In order to maintain quality staff, our teachers engage in ongoing professional development, dialogue, research, and reflection. We strive to provide our students with the best learning opportunities possible in a safe and caring environment. Through setting high academic and social standards, providing quality instruction, and working as a team with families, we will continue our tradition of excellence. Please consider joining our Parent Teacher Association, School Advisory Council, or dedicated group of school volunteers to help us reach these goals.

School Mission Statement

Our mission at Shady Hills Elementary is to create a caring, engaging, and challenging environment for our students so they become independent thinkers and lifelong learners, as well as responsible, thoughtful citizens who value themselves and others.

School Improvement Plan 2010-2011

Members of our school community worked together to implement the strategies of our School Improvement Plan. Emphasis was placed on improving tier one instruction and using data from common assessments to inform instructional decision-making. Other key strategies included small group instruction and the use of learning centers in the math block, conferencing for improvement in writing, and a focus on the scientific process in science. Special emphasis was placed on grade four within the 2009/2010 School Improvement Plan. FCAT proficiency results for fourth grade demonstrated a 14 percent increase in mathematics, eight percent increase in reading, and 14 percent increase in writing.
