#### Message from the Superintendent

The 2010-2011 school year is off to a great start, as we have a strong team of talented educators working throughout our schools every day. We are eager to partner with you to make this a successful school year for your child. One important way we can work together to maximize your child's potential is to reinforce the expectation of good attendance. When students prioritize being at school on time, they are more likely to have a successful experience. We appreciate your help in achieving this important goal.

Our theme for the year is *Learning in the 21st Century*. You will notice an emphasis on the integration of technology into your child's learning as we strive to prepare all students for the challenges of tomorrow and provide equitable access to the tools he or she will need for success. Additionally, our focus is on developing the 21st Century Literacy skills that are needed in our ever-changing world. We want to help our students become better problem solvers, engaged in the world around them and equipped with the critical thinking skills that are needed for analyzing, developing innovative solutions and sharing their creativity with others. Today's students are tomorrow's leaders and we are fostering a supportive learning environment that will help them to reach their dreams.

As we immerse students in an enriching educational environment, we will be expanding the availability of digital learning content. With the use of these resources comes the need for a higher level of personal responsibility for students. We want to help your child develop an understanding of how to navigate online resources in a responsible and safe manner. As part of the cultivation of those skills, we will enforce high expectations that all students will appropriately use these tools to enhance their education. Your help in reminding your child to use technology in an appropriate manner would be greatly appreciated.

As you are probably aware, our District still faces significant financial challenges. In addition to a third consecutive year of multi-million dollar budget shortfalls, districts throughout the state are required to implement the final phase of the class size amendment this year. Despite these challenges, we remain committed to prioritizing the needs of students and ensuring a high quality educational experience for the children of Pasco County.

Again, thank you for your support of our school district. We look forward to working with you to maximize your child's success this year.

## Message from the Principal

Seven Springs Middle School, rated an A school by the state of Florida for the fifth consecutive year, begins its fifteenth year serving our community. I am proud to lead a school in a community that places such a high value on education and makes the teaching of our youth a top priority. All stakeholders – students, faculty, staff, families, and business partners - work together to help our school further its mission. I am proud of our school's past accomplishments, and I look forward to capitalizing on our success as we continue our tradition of excellence!

## School Mission Statement

The staff at Seven Springs Middle School is committed to establishing an educational environment founded on the belief that all students can learn all the essential skills, achieve at their highest potential, and succeed in meeting new challenges.

## School Improvement Plan 2010-2011

Once again, Seven Springs Middle School surpassed both district and state averages in the areas of reading, math, science, and writing. After a careful analysis of student data, the faculty implemented a variety of research-based instructional strategies, including a focus on differentiation of instruction to help all students experience success. This resulted in 79% of our students making a learning gain in math, with our Students With Disabilities (SWD) subgroup achieving the greatest gains and making Adequate Yearly Progress (AYP.) In addition, 74% of our students achieved high standards (level 3 or higher) in reading, 73% achieved high standards in math, and 98% achieved a 3.0 or higher in writing.
