

Pasco County Schools

Kurt S. Browning, Superintendent of Schools
7227 Land O' Lakes Boulevard • Land O' Lakes, Florida 34638

Dear Parent/Guardian:

According to District School Board of Pasco County Policy 5335, students who receive medication, health procedures or have special dietary needs (e.g. Diabetes Management, Diastat, Asthma Inhaler, EpiPen, Pancreatic Enzyme Supplement) at school shall provide **annual** parental and healthcare provider authorization for the administration of medications and procedures.

If your child plans to carry his/her own supplies and/or perform any of the above medical procedures independently and without supervision during the next school year:

- Please return the *Authorization to Carry and Self Administer Diabetes Medication/Procedure, Asthma Inhaler, EpiPen, Pancreatic Enzyme Supplement* form (available on the district website) signed by physician, parent and student **on or before the first day of school**.
- Please make sure your child carries all necessary supplies (Diabetes equipment or medication, Inhaler, EpiPen, and/or Pancreatic enzyme supplement) at all times.

If your child may/will require assistance with administration of medication and/or procedures at any time during the next school year:

- Depending on your child's condition, please return either the *Severe Allergy (Anaphylaxis) or Seizure or Diabetes Medical Management Plan* form (found below) completed and signed by physician and parent **on or before the first day of school**.
- Please return the *Authorization for Medication Administration* form (available on the district website) for any medication that will need to be administered for your child **on or before the first day of school**. This form should be completed and signed by parent.
- Please provide the school clinic with all necessary supplies. Remember that medication must be brought to school by the parent / guardian (e.g. Insulin, Glucagon, Diastat, Inhaler, EpiPen, etc.).

If your child may/will require assistance with special dietary needs during the next school year:

- Please submit completed *FNS Request* and/or *Severe Allergy (Anaphylaxis) Medical Management Plan* forms. The *FNS Request Form* will be reviewed/evaluated by the Food & Nutrition Services District Office on a case-by-case basis. Since school sites are not allergen free facilities, it may be beneficial to send a meal from home for the first few weeks of school.
- While not all students' requests will be accommodated, our online menus identify common allergens and carbohydrate/nutrient information to assist you and your child in navigating their meal options. You can access this helpful tool online at <http://pasco.nutrislice.com> or download the mobile app on your smartphone or tablet.

Please feel free to call your child's School Nurse if you have any questions or would like to discuss your child's health status.

Thank you.
