

Alternative Certification Work Sessions 2011-2012

The following are scheduled monthly work sessions for teachers currently in Pasco County's Alternative Certification Program. At these sessions, we will look at tasks, develop individual plans for completion, refine tasks you might be having questions about, and basically do anything that would help with completion of the program.

Registration for these sessions is not required, but if you are planning on attending please email Terri Brown (tabrown@pasco.k12.fl.us) so there will be sufficient materials available.
