Re: Second Email Request for "Draw Out" Proceeding – April 19, 2018

Dear Mr. Stanley:

This letter follows my review of the above matter and my response to you. In light of the fact that your rule challenge was filed only a few hours after your second request for a "draw-out" proceeding, it was unclear whether you intended to proceed with that request or abandon it by your challenge. Nevertheless, by this correspondence I want to more clearly address your above second request for a "draw-out" proceeding.

I have reviewed your request for a "draw-out" proceeding, attachments thereto, and your various other submissions to date on the proposed rezoning of Westside attendance boundaries. After considering such materials, I do not find that there has been an affirmative demonstration that the current process fails to provide adequate opportunity to protect your interests in this matter. As such, I do not find that a "draw-out" proceeding is necessary at this time, and as such, the revision process will not be suspended.

Please accept this correspondence and my prior explanations why the draw-out proceeding you have requested is unnecessary, and why the current process is fair and adequate to protect all involved interests.

Sincerely,

Kurt S. Browning  
Superintendent of Schools
