Diabetes Medical Manage	ment	Plan for Sch	ool Year 20 _.	20
	Student	: ID:	DOB:	Diabetes Type:
Date Diagnosed: <u>Select Month from Pulldown</u> (or fill in he	ere:) Year	:	
School:			Grade:	Home Room:
Parent/Guardian #1:	Home #	ŧ:	Cell #:	Work #:
Parent/Guardian #2:		<u>t:</u>	Cell #:	Work #:
Parent/Guardian's E-mail Address:				
Diabetes Healthcare Provider:		Phone:		Fax:
Student's Self-Management Skills		Independent	Needs Supervision	Full Support By Trained Staff
Performs Testing and Interprets Blood Glucose/CGM Resu	ults			
Calculates Carbohydrate Grams				
Determines Insulin Dose for Carbohydrate Intake				
Determines Correction Dose of Insulin for High Blood Gluc	ose			
Determines insulin dose and self-administer insulin				
Student allowed to carry diabetes supplies			diabetes supplies	require no supervision are allowed to carry and self-administer insulin with written parental authorization, according to Florida Statute 1002.20(3)(j).

Testing Blood Glucose At School		
Test Blood Glucose before administering insulin an	d as needed for signs/symptoms of high/low blood glucose.	
Additional Blood Glucose Testing at school: 🗌 Yes (Ti	me/s): Before Exercise 🗌 Before Dismissal	OR 🕨 🗌 No
Target Range for Blood Glucose: mg/dl to		

Continuous Glucose Monitors (CGM)	
Student uses continuous glucose monitoring system at school: □ Yes OR ►	No. Make/Model:
Alarms set for: Low mg/dl High mg/dl If set	nsor falls out at school, notify parent
☐ May use CGM reading in place of BG finger stick for calculating correction if	^c CGM reading is between or OR ▶ □ No
Students using a continuous glucose monitor must always do fingerstick and/or if symptomatic.	glucose reading to confirm a low/high blood glucose

LOW Blood Glucose (HYPO-glycemia) – Test Blood Glucose to Confirm
Does student recognize signs of LOW blood glucose?
Student's usual symptoms of hypoglycemia
Management of Low Blood Glucose (below mg/dl) by fingerstick.
1. If student is awake and able to swallow: give grams fast-acting carbohydrates such as:
<u>4 oz.</u> fruit juice or non-diet soda or 3-4 glucose tablets or concentrated gel or Other:
2. Retest blood glucose 10-15 minutes after treatment. Student remains in clinic during treatment.
Repeat the above treatment until blood glucose is over mg/dl.
4. Follow treatment with snack of grams of carbohydrates if more than one hour until next meal/snack or if going to activity.
 Notify parent when blood glucose is below mg/dl.
 Delay exercise if blood glucose is below mg/d
If student is unconscious or having a seizure, call 911 immediately and notify parents. Position student on side if possible. If
wearing an insulin pump, place pump in suspend/stop mode or disconnect/cut tubing.
Glucose gel: One tube administered inside cheek and massaged from outside while waiting or during administration of Glucagon.
Glucagon: mg administered by trained staff. Baqsimi:mg administered nasally by trained staff.

Student's Na	me: Student's DOB:	Student's ID#
HIGH Blood	Glucose (HYPER-glycemia)	
Does student r	ecognize signs of HIGH blood glucose? 🛛 Yes 🗌 No	
Student's usu	al symptoms of hyperglycemia:	
Students usin	of High Blood Glucose (over mg/dl) g a continuous glucose monitor must always do fingerstick glucose read sulin Administration section below for designated times insulin may be given	
	water or other calorie-free liquids as tolerated and allow frequent bathroom priv	/ileges.
	k <u>ketones</u> if blood glucose over mg/dl.	
 Notify child 	parent if <u>ketones</u> positive and/or glucose over mg/dl. If moderate/larg	ge ketones notify the parent to pick up the
In additio	n to steps above for management of <u>high</u> blood glucose, also follow step	s below for <u>very high</u> blood glucose over
m	ı/dl.	
4. If una	ble to reach parents, call diabetes care provider. (Medical orders must be in w	riting. No verbal orders accepted.)
5. If una	ble to reach parents or physician stay with student and document changes in s	status. Call 911 for labored breathing, very
weak	confused or unconscious.	
	t blood glucose in hours if above mg/dl.	
7. Delay	exercise if blood glucose is above mg/dl.	

Insulin Administration

Insulin correction for <i>high blood glucose</i> at school, indicate times: Before Breakfast Before Lunch Other time: May repeat insulin correction dose , if greater than hours since last correction dosing.									
Type of Insulin at scho	Type of Insulin at school: Humalog Novolog Apidra NPH Lantus Levemir Other:								
Method of Insulin delivery at school:	□ P □ S	en yringe	lf	Insulin Pump: Pump will calculate insulin dose. If pump fails, use pen/syringe to administer insulin per sliding scale or correction dose below. Indication of possible pump failure is BG ≥ 250 and moderate or large ketones.					

Carbohydrate Insulin Dose		
Insulin for <i>carbohydrates</i> eaten at school, indi	cate times:	
Before Breakfast Give one unit of insulin per grams of carbs	Give one unit of insulin per grams of carbs	Snack. If, yes, time/s: Give one unit of insulin per grams of carbs Free Snackgrams

High Blood Glucose Correction Dose – Use Insulin Sliding Scale or Equation								
Blood glucose	to	Insulin Dose =	units	Blood glucose	to	Insu	lin Dose =	units
Blood glucose	to	Insulin Dose =	units	Blood glucose	to	Insu	lin Dose =	units
Blood glucose	to	Insulin Dose =	units	Blood glucose	to	Insu	lin Dose =	units
OR Correction dose (Actual BG minus Target BGmg/dL) divided by Correction Factor = Correction Dose								

I hereby authorize the above named physician and Pasco County Schools staff to reciprocally release verbal, written, faxed, or electronic student health information regarding the above named child for the purpose of giving necessary medication or treatment while at school. I understand Pasco County Schools protects and secures the privacy of student health information as required by federal and state law and in all forms of records, including, but not limited to, those that are oral, written, faxed or electronic. I hereby authorize and direct that my child's medication or treatment be administered in the manner set forth in this medical management plan. I understand that all snacks and supplies are to be furnished/restocked by parent.
